ABOUT ME

Junior Software Engineer and Computer Science graduate from University Tunku Abdul Rahman (UTAR). Strong foundation in programming, software development, and web applications through academic projects and internship experience. Passionate about building reliable software, learning best practices, and contributing to development teams.

EDUCATION

2022-2026

University Tunku Abdul Rahman (UTAR)

Bachelor of Computer Science (Honours)

Final Year Project (FYP): E-Commerce Platform for Miniature Products - Built a full-stack e-commerce platform with cart, checkout, payment, and community features

2021-2022

University Tunku Abdul Rahman (UTAR)

Foundation in Science (Physic Science stream)

WORK EXPERIENCE

Oct 2025 - Jan 2026

Jinjing Technology (M) Sdn. Bhd.

IT Support & System Development Intern

- Built an internal IT Inventory System using web technologies, replacing manual Excel-based processes
- Supported system maintenance, user requests, and basic network troubleshooting
- Applied problem-solving and time management skills in a real production environment

Project

- **Scroll-Driven UX:** Engineered a dynamic "Latte" themed experience using GSAP ScrollTrigger to synchronize image clip-path and scale transformations
- **Creative UI/UX:** Designed a warm, minimalist aesthetic (Stripe-inspired) leveraging Tailwind CSS
- **Motion Engineering:** Developed high-performance micro-interactions and smooth-scrub animations
- **Tech Stack:** HTML5, Tailwind CSS, GSAP (ScrollTrigger), ES6+ JavaScript

SKILLS

Key Skill: Problem-solving, quick learner, teamwork, communication, debugging

Technical Skills: Python, C++, JavaScript, HTML, CSS, SQL, Linux (basic)

Language: English, Chinese, Malay, Hokkien

Certification: Malaysian University English Test (MUET)
